Enrichment

Dear Parent / Carer,

We are launching a **bigger, better Enrichment programme** this year than ever before, and we need your help!

Please ask your child about which Enrichments they will be picking this term. Remind them that;

- Enrichment is a great opportunity to meet other students (including in different year groups) and learn new skills
- These clubs are fun, creative and about developing new hobbies and interests – they are not just “another lesson”
- KAA students who participate in Enrichment end up happier, healthier, and with better qualifications at the end of their time here than those who don't!

Students can see the options and enter their choices below - please choose early to avoid disappointment. You must register by 5pm on **Wednesday 8th September**.

See enrichment options: <https://kaa.org.uk/register-for-enrichment/>

Register at: <https://forms.gle/EwjQ9JQ5tKh7e3i9>

You must be logged into a KAA email account to complete the registration form. New Year 7s will complete with their Form Tutors next week, as they are not yet used to using KAA email.

For GCSE and A Level students, they will also have the chance to attend academic interventions or academic societies after school, and teachers will be in touch with them directly about these.

All autumn term enrichment will start on Monday 13th September and end on Thursday 9th December.

Intrepidus!
KAA
