You need to spend 20 minutes each day working through the pack.

2. NEA:

You need to construct your NEA DVD cover using the NEA checklist and guidelines booklet in your media folder on your drive.

- Focus on your blurb and the certification.
- Choose a font that you are going to use for **all** of your DVD text
- Copy and paste the blurb on the back cover at the top
- This will take up a lot of space so choose a font size that is readable but small
