

# Statistics GCSE revision – Easter Holidays

Well done for all your hard work so far.

The Easter holidays are a great opportunity to work on the topics you have identified as target areas from your March mocks.

Here are the things you should be doing.....

## 1. Use your revision guide

- Your teacher will give this to you in your lesson.
- This workbook has examples and practice questions which you can use to help you review topics you were unsure of in the mocks.
- Your teacher will tell you which sections they would recommend you work through first.

## 2. MathsGenie and StatsAcademy

- Use maths genie to work through past papers.
- You can also use this to work on particular topics you need to review following on from the mocks.
- You can add to your flash cards using Stats Academy notes and key definitions.
