

16 April 2024

Summer Term Enrichment

Dear Parent / Carer,

We are excited to write to you with details about our Summer Enrichment program. Enrichment offers students exciting avenues to explore their interests and hobbies beyond their regular curriculum. It's our expectation that all KS3 students participate in at least one Enrichment activity per week.

Enrichment will begin on Monday 22nd April and finish on Friday 21st June.

Below, you'll find the link to the complete list of Enrichment activities available for your child. We encourage you to discuss these options with them to determine their preferences.

Starting next week, on Monday 22nd April, your child should simply attend the Enrichment activity of their choice. They'll be registered upon arrival, and you can track this through the SIMS Parent App. No pre-signup is required.

Please note that a few clubs have limited capacity and require pre-registration. To secure a spot, your child needs to use their KAA account to complete the Summer Enrichment Sign-up Form.

Register for Enrichment here: <https://shorturl.at/uwBHJ>

See enrichment options: <https://shorturl.at/aLNU2>

If you haven't already, I highly recommend downloading the SIMS App. It offers real-time access to your child's timetable, rewards, and any detentions. If you encounter any difficulties accessing the SIMS App, please don't hesitate to reach out to us at simsparent@kaa.org.uk for assistance and support.

Please contact me via j.vines@kaa.org.uk if you have any questions about enrichment. You can also find out more about enrichment on our website at: <https://kaa.org.uk/curriculum/enrichment/>.

Kind regards,

Ms J Vines
Assistant Principal - Personal Development
