Statistics Easter Holidays

1. Revision Notes

- You have been given a copy of the revision notes for the full course.
- Make sure you know by heart the different sampling types, formulae and statistical methods in the booklet.

2. Stats Genie website

- Use the revision list you have started in the back of your book to self select topics.
- Watch the videos, answer the questions, check your answers.
- You can also find further past papers on this site.

3. Complete past papers

- You have been given a full set of papers to with through, with answers on google classroom.
- Complete as much as you can independently, mark using the mark scheme online and add topics to your revision list.
- Go back to point 2 and revise the new topics on your list.
